**5 = "Absolutely"**

How would you rate the course overall?

29 responses

1 = "Terrible"

5 = "Amazing"

## What would you say about the course?

Fantastic course, really well presented and have come away feeling a lot better prepared

Really great course !

Genuinely the best course I have attended in my career so far. Despite being a whole day course did not lose interest at any point- fun, engaging, informal, helpful for both AKT and day to day clinical work. Loved the constant questions which kept me engaged throughout.

Excellent course. Really engaging and loved the interactive course!

Amazing course and presentation, the booklet is very informative well written

Thank you for amazing day, I loved the format of the course which is relaxed and also incorporates the pathophysiology in an easy to understand format.

Great course, very engaging and text book is awesome

Amazing set up of the course, good materials and very engaging course

Lovely, interactive day, very useful and entertaining 😊

Good interactive course, good material provided

Loved the interaction, clear and well organised

Very interactive and on point.

Quick, thorough, informative

Time was flying by

Great course, super concise, lots of content covered

Excellent course, very interactive and covered high yield topics. I would highly recommend.

A lovely overview of the different topics, which helped me identify areas of I can improve in.

Helpful to the point and very enjoyable

The course was extremely beneficial. I particularly appreciated the course handbook, which contained high-yield content presented in a clear and easy-to-follow format.

Tom was very engaging and kept us entertained with anecdotes and memes throughout the sessions. I was genuinely impressed by Tom's digital art skills- at times I found myself simply admiring the level of detail in his illustrations. The regular breaks also helped maintain focus and made the learning experience more enjoyable.

Overall, the course was very useful, and I feel proud to have someone with Tom's creativity and talent as part of the profession.

One possible improvement would be access to digital resources for revision on the go, although I understand that copyright considerations may make this difficult. Additionally, incorporating occasional opportunities to stand up and move around might help maintain concentration over longer periods.

Just so wonderful! As good as all the resources used in med school. Actually managed to concentrate the whole time.

Very thorough and amazing course

The only course you need for AKT preparation. 10/10

Really concise - amazingly concise and uncomplicated

Highly useful slides, helps to focus revision

Absolutely fantastic. Succinct and high yield! Thank you!

Excellent overview of common AKT topics and really well delivered with brilliant cases

Amazing AKT crash course. Dr Watchman is an excellent teacher who breaks down complex topics and explains them well. I would definitely recommend this course and the materials.

Wonderful course. Really enjoyed it. Tom is a great teacher. Found it helpful both for AKT revision and day to day practice.

Well organised, concise and targeted to AKT.
